Fusion Tech's Growth & Expanded Capabilities

FusionTECH adds 4000 watt Prima Platino laser to our cutting capabilities

60" x 120" table

Gauge thru 3/4"

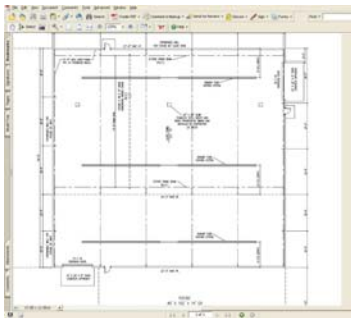

+/- .005 on 3/8" and under

Accuracy and speed lower your costs

7 days a week production, "Lights Out" to hit your lead times

Fusion Tech begins construction of ~~15,000~~ 21,000 sq foot addition to our manufacturing facility!

This expansion will allow Fusion Tech to increase our fabrication department, and optimize our production flow

The move will free up 7,500 sq foot of space, which will be utilized for development of an R&D facility with a "clean" room for testing and washdown of equipment for the food processing industry
